EXPERIENCE

SEPA Cyber Technologies, Istanbul — Senior IT Project Manager

FEB 2022 - PRESENT

Led delivery of enterprise digital banking platforms for EU and UK clients within regulated environments.

- Led a portfolio of 8+ digital banking and FinTech transformation programs, coordinating cross-border teams and global vendors, consistently delivering initiatives on time and within budget.
- Directed cross-functional teams of 35+ developers, mobile engineers, QA specialists, and DevOps engineers across multiple geographies, improving delivery predictability and stakeholder confidence.
- Defined project scope, KPIs, and delivery roadmaps in partnership with C-level stakeholders, translating strategic objectives into executable plans.
- Delivered whitelabel digital banking platforms across EU/UK, aligning client product roadmaps and delivery priorities, improving data quality by 25%.
- Coordinated with UK and US vendors for API integrations including KYC/KYB, digital payments, and transaction monitoring.
- Oversaw production releases, and prioritization cycles, ensuring zero critical defects during go-live and post-release phases.
- Acted as primary escalation point for delivery and risk issues, maintaining strong client relationships and long-term engagement success.

✓ 8+ enterprise platforms delivered | ✓ 35+ team members led | ✓ 25% data quality improvement | ✓ Zero critical production defects
