EXPERIENCE

SEPA Cyber Technologies, Istanbul — Senior IT Project Manager

FEB 2022 - MAR 2025

Led the delivery of enterprise digital banking platforms for EU and UK clients within regulated environments.

- Led a portfolio of 8+ digital banking and FinTech transformation programs, coordinating cross-border teams and global vendors, consistently delivering initiatives on time and within budget.
- Directed cross-functional teams (45+ engineers) across multiple geographical regions.
- Defined project scope, KPIs, and delivery roadmaps in partnership with C-level stakeholders, translating strategic objectives into executable plans.
- Define product roadmaps and delivery priorities, improving data quality by 25%.
- Oversaw production releases, ensuring zero critical defects during go-live and post-release phases.
- Acted as the primary escalation point for delivery and risk issues, maintaining strong client relationships and long-term engagement success.

✓ 8+ enterprise platforms delivered | ✓ 45+ team members led | ✓ 25% data quality improvement | ✓ Zero critical production defects
